BRIDGES

Assessing the production and impact of migration narratives

IN A NUTSHELL

Who we are and what are our goals

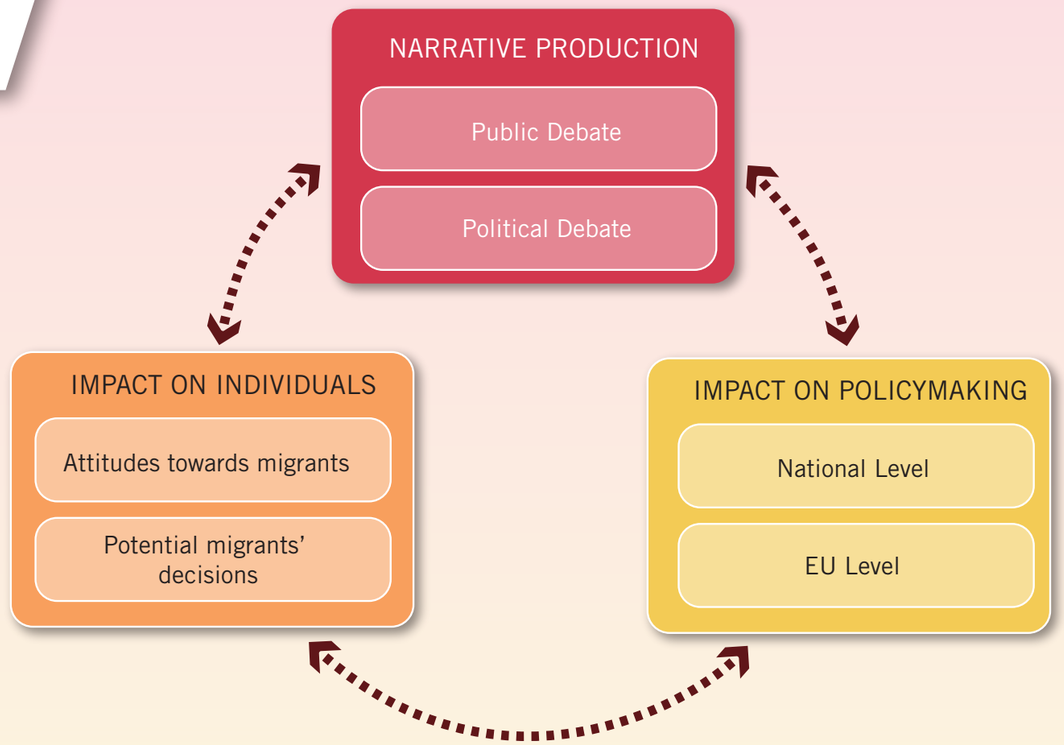
BRIDGES_Migration

BRIDGES is an EU-funded research project partnered by 12 universities, think tanks, research centres, cultural associations, and civil society organisations, involving more than 45 experts.

Building BRIDGES between:

- Areas of knowledge and methodologies
- The study of narratives' production and impact
- Research and practice on migration issues

Why some narratives become dominant over others?



MAIN GOALS

The project aims to understand the production and impact of migration narratives in a context of increasing politicisation and polarisation around these issues, with an interdisciplinary and co-production approach.

ACADEMIC
Analysing why some narratives become dominant over others in the public sphere

POLICY
Fostering evidence-based policy decisions on migration issues

SOCIAL
Creating spaces for dialogue between the actors involved in narrative production

MAJOR OUTPUTS

Publications
Working Papers
Policy Briefs
Gender Guidelines
Toolkit for CSOs

Events
Policy-oriented events
Stakeholder workshops
Webinars & public talks
Final Conference

Multimedia
Podcasts
Videos
Infographics

Co-production
Muralism contest
Rap music contest
Photojournalism exhibit

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101004564.
